 Albert\_Einstein\_1947.jpg/250px-Albert\_Einstein\_1947.jpg" alt="Albert Einstein"/>

Albert Einstein (14 March 1879 – 18 April 1955) was a German-born theoretical physicist who is best known for developing the theory of relativity. Einstein also made important contributions to quantum mechanics.[1][5] His mass–energy equivalence formula  $E = mc^2$ , which arises from special relativity, has been called "the world's most famous equation".[6] He received the 1921 Nobel Prize in Physics for his services to theoretical physics, and especially for his discovery of the law of the photoelectric effect.

Major Achievements:

- Special Theory of Relativity (1905)
- General Theory of Relativity (1916)
- Photoelectric Effect (1905)
- Quantum Theory of Light
- Bose-Einstein Condensate

Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world.” ~Albert Einstein
